

INTERNATIONAL DAY OF Democracy

International Day *of* DEMOCRACY

"United we stand, divided we fall", is a chronically overused statement. However, one can never over-emphasize its significance.

A democracy is marked by discussions, debates and deliberations and by this virtue, it showcases the strength of the people.

The International Day of Democracy is celebrated every year on the 15th of September, to encourage the strengthening and consolidation of democratic governments.

On this day, let us take a moment to cherish the beauty of democracy and strive to enhance democracy in our daily lives!

vcw.kshitij Tocqueville said, "What is most important for democracy is not that great fortunes should not exist, but that great fortunes should not remain in same hands".

Let's celebrate the rule of people, let's celebrate Democracy.
